Reconciliation of Non-GAAP Financial Measures

To supplement the consolidated financial statements, which are prepared and presented in accordance with GAAP, we also present the following non-GAAP measures: EBITDA and Adjusted EBITDA. We believe the presentation of both GAAP and non-GAAP financial measures provides investors with increased transparency into financial measures used by our management team, and it also improves investors' understanding of our underlying operating performance and their ability to analyze our ongoing operating trends. All historic non-GAAP financial measures have been reconciled with the most directly comparable GAAP financial measures.

EBITDA is defined as net loss attributable to common stockholders adjusted to exclude interest expense, income tax expense and depreciation and amortization expense.

Adjusted EBITDA is EBITDA adjusted to exclude certain expenses related to the Company's capital structure and management fee expense prior to the merger pursuant to that certain Agreement and Plan of Merger, dated as of October 21, 2020 (as amended by Amendment No. 1, dated December 16, 2020), by and among CarLotz, Inc. (f/k/a Acamar Partners Acquisition Corp.), Acamar Partners Sub, Inc., a wholly owned subsidiary of CarLotz, Inc., and CarLotz Group, Inc. (f/k/a CarLotz, Inc.) ("Former CarLotz"), pursuant to which Acamar Partners Sub, Inc. merged with and into Former CarLotz, with Former CarLotz surviving as the surviving company and as a wholly owned subsidiary of CarLotz, Inc. (the "Merger"), stock compensation expense and other non-operating income and expenses, including interest, investment gain/loss and nonrecurring income/expense.

Management believes the inclusion of supplementary adjustments to EBITDA applied in presenting Adjusted EBITDA is useful to investors in comparing the Company's performance prior to the Merger and the Company's performance following the Merger.

EBITDA and Adjusted EBITDA have limitations as analytical tools, and should not be considered in isolation or as a substitute for analysis of the results as reported under GAAP. These measures may not be comparable to similarly titled measures reported by other companies.

The following tables reconcile EBITDA and Adjusted EBITDA to net loss attributable to common stockholders for the periods presented:
